monitor the whole Omada network in real-time, while cloud service enables remote and secure access no matter where you find yourself.

Facebook check-in and SMS authentication expands your social influence in secured ways

Captive portal helps maintain only authorized guests to use the network, presenting devices with a convenient, user-friendly authentication method to grant Wi-Fi access. The addition of SMS and Facebook authentication simplifies the captive portal even further to simplify connectivity and boost your business.

Multiple PoE Options for Easy Installation

EAP225 supports both 802.3af PoE and Passive PoE power supply, can be either powered by a PoE switch or the provided PoE injector, making deployment effortless and flexible.

Easy Management with the Omada App

Follow configuration instructions on the free Omada app to get set up in minutes. Omada lets you configure settings, monitor the network status and manage clients, all from the convenience of a smart phone or tablet.

Meet Our New Hero Product!

The OC200 Omada Hardware Controller is dedicated to providing centralized management for the whole Omada network.
