Precise strokes, natural flow

Write, sketch, and create with confidence with the S Pen on Galaxy Tab S10 Lite. The 0.7 mm tip provides fine control and a natural feel, making it easy to capture ideas and details with precision. Every stroke moves as smoothly as your ideas, so you can stay in your creative flow.

A comfortable fit in your hand

Designed for comfort, the S Pen gives you a natural grip that feels like your favourite pen. It feels light in your hand but steady enough for precision — ideal for long study sessions, journaling or detailed edits.

Easy to carry, easier to store

Snap the S Pen right onto the side of your Galaxy Tab S10 Lite, so it stays magnetically attached within reach. Whether you're heading to class, moving between meetings, or sketching during your commute, it's easy to carry wherever your day takes you.
