

GIGABYTE GC-WIFI7 network card Internal WLAN / Bluetooth 5800 Mbit/s

Model: GC-WIFI7

Manufacturer: GIGABYTE

EAN: 4719331859558

Product Code: 460876

R2,196

Wi-Fi 7 brings you the Ultimate VR experience

Wi-Fi 7 provides significant benefits to the realm of virtual reality (VR). With its high bandwidth and low latency capabilities, Wi-Fi 7 ensures a smooth and immersive VR experience.

320/160 MHz channels

Wi-Fi 7 supports up to 320 MHz channels, providing a significant increase in bandwidth for faster data rates.

4K-QAM

With 4K-QAM technology, Wi-Fi 7 improves data throughput, resulting in faster file transfers and seamless streaming.

Multi-link Operation

With MLO(Multi-Link Operation) technology, you can allocate the 2.4GHz band for streaming and the 5/6GHz band for gaming, resulting in a higher quality network experience with fewer interruptions.

Deterministic low latency

Deterministic low latency ensures minimal delays, making it ideal for real-time applications like video conferencing and online gaming.

GIGABYTE Ultra-high Gain Antenna

Experience enhanced signal strength with the GIGABYTE Ultra-high gain Antenna, which incorporates a smart antenna function to optimize Wi-Fi signal transmission.
