

LevelOne 5-Port Gigabit PoE Switch, 802.3at/af PoE, 4 PoE Outputs, 60W

Model: GEP-0523

Manufacturer: LEVELONE

EAN: 4015867207437

Product Code: 460884

R2,477

The LevelOne GEP-0523 is a Gigabit Ethernet PoE switch with a total of 5 ports, one of which is available as uplink port and 4 ports for Power over Ethernet. Per PoE port a power supply of up to 30W is possible. The total PoE power budget is 60W. It is an ideal solution when office and home users use a combination of PoE and non-PoE devices.

The GEP-0523's four PoE-enabled ports make it the ideal solution for office users using PoE-enabled devices in the workplace. This can include a mix of PoE IP phones, PoE Wifi APs and PoE IP cams. It is the perfect solution for offices that want to upgrade their office equipment and LAN infrastructure to PoE capability or upgrade with Gigabit performance. The switch automatically detects the connected IEEE 802.3at/af standard device and provides these devices with power and data over a single cable.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

In addition, the GEP-0523 enables users to provide a stable and reliable high-speed LAN environment with store-and-forward switching architecture, packet error filtering and blockage-free packet forwarding. The 802.3x flow control mechanisms operate in both full and half duplex modes. This device supports the N-Way Auto Negotiation protocol, which automatically detects network speed and duplex mode.

For instant fault detection, the GEP-0523 is equipped with a full range of LEDs to help monitor and troubleshoot the network.
