ARCTIC P402 - Bluetooth Street Headphones

Model: HEASO-ERM43-GBA01

Manufacturer: ARCTIC

EAN: 8727670057098

Product Code: 461477

R1,593

With powerful bass, the P402 brings you a new sense of excitement in music. The soft and comfortable ear pads provide complete noise isolation with lasting comfort. You will stay connected to your social network thanks to its in-line microphone which allows you to switch between your music and calls - you will never have to take them off.

Lasting Comfort

The P402 is focused on wearing comfort and lightweight design. The slimmer cable maintains superior sound quality yet helps to reduce P402 to 130 grams. Its 15 mm thick ultra-comfort earpads allow you to enjoy wearing this pair of headphones around the clock.

Linearity

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

P402 is equally sensitive to all frequencies so that no frequency will be exagerated. You simply get a more accurate playback of your music.

In-line microphone - for Smartphones and tablets

Enjoy your music, movies, and even carry on phone conversations with the best sound quality and completely handsfree while being isolated from your surrounding noise.

Smartphone Adapter

There are mainly two standards for 3.5 mm jack on Smartphones. We have chosen the dominating standard used by popular manufacturers, such as Apple, HTC, Blackberry, Motorola, Sony Mobile and newer Samsung. Unfortunately, older Samsung models, Sony-Ericsson and others do not follow the same standard. Therefore we have included an extra adapter for your convenience. For more information about the TRRS, click here to find out more.
