Ideal for Commercial Environments

An excellent choice for commercial applications, interactive digital signage, instore retail, gaming and amusement arcades, POS terminals, interactive kiosks, and presentation purposes.

Projected Capacitive (PCAP) Touch

With 10-point Projected Capacitive (P-Cap) touch technology, the HANNSpree HT165HPB delivers seamless and accurate touch response. Featuring LED-backlit LCD technology, it offers exceptional colour performance, making it an excellent choice for a wide range of demanding interactive applications.

Perfect for both commercial and consumer use, the HT165HPB is a versatile solution for all your multi-touch monitor needs—ideal for interactive digital signage, in-store retail, gaming and amusement, point-of-sale (POS) terminals, interactive kiosks, presentations, and more.

Full HD Resolution and wide viewing angles 170°

The HANNspree HT165HPB features a Full HD panel that delivers stunning 1920 × 1080 resolution visuals with outstanding colour reproduction and a 170°/170° wide viewing angle. This provides greater flexibility when extending your screen, ensuring superb colour and contrast—even from extreme viewing positions—without colours washing out.

Scratch Resistant – Multi-Touch Screen with 7H Surface Hardness

A 7H scratch-resistant surface ensures durability and a consistently high-quality touch experience. Scratch resistance is essential for touch solutions used in education and public environments, achieved through a toughened glass overlay that protects the screen. This design allows the panel surface to withstand scratches and impacts from objects, making it ideal for public spaces and educational institutions.

With its 7H hardness rating, the HT165HPB is built for schools, colleges, universities, as well as retail and industrial applications—offering long-lasting protection against impacts, dirt, and daily wear.

Slide easily into the best angle for touch control

The HT165HPB features a smart adjustable sliding-tilt stand with a 15°–50° tilt range for the ideal viewing position and effortless touch usage for interaction.

Alternatively, the hinged stand allows the monitor to lay completely flat on a desk, transforming it into a large tablet. With its ergonomic design, you can reduce poor posture and wrist strain while enjoying the HT165HPB’s excellent picture quality and responsive touch interaction.

Additionally, the monitor is VESA-compatible (75 × 75 mm), offering exceptional flexibility for a wide range of installation options, including wall mounting, arm mounting, POS stands, kiosk towers, and other configurations.

Extensive Connectivity

The HANNspree HT165HPB offers a wide range of connectivity options, including HDMI and D-Sub (VGA). With its versatile inputs, the HT165HPB ensures compatibility across multiple devices—whether you’re gaming, browsing, or video chatting with friends, your content is always ready to go.

Getting touch functionality is simple: just connect the USB cable from your PC to the monitor’s USB upstream port, then connect your preferred video input to project images on screen.

Speakers and Headphones

The HT165HPB comes with two built-in speakers, making it easy to stay connected with family, friends, and colleagues. Whether you’re watching movies, listening to music, playing games, or more, you can enjoy clear audio without the need for external speakers.

Prefer a more private experience? Simply plug your headset into the headphone jack and turn up the volume.
