Perfect for both commercial and consumer applications, the HT225HPB is a one-stop solution for your multi-touch monitor needs: an ideal screen for Interactive Digital Signage, InStore Retail, Gaming/amusement, Point-of-Sale terminals (POS), Interactive Kiosks, Presentations purposes and many more applications.

PROJECTED CAPACITIVE (PCAP) TOUCH TECHNOLOGY

Now multiple users can experience shared touchscreen interaction. Using up to 10 finger touch points, the HANNSpree HT225HPB Monitor allows everyone to play and collabourate at the same time.

The precise and accurate multi-touch display — allowing up to 10 simultaneous touches — is optimized for use with Windows 8, 8.1 and 10, allowing you to work smarter and more efficiently.

There’s no need for additional controllers – all they have to do is just reach out and touch the screen. It is certified for Windows 10 and designed to offer superior performance as well as intuitive control, so you can be more productive and do everything you want to do smoothly and quickly.

With Projected Capacitive Touch, users can enjoy a smoother and more accurate touch display experience with increased interactivity. Thanks to the glass overlay this technology is highly durable, the Touch performance is unaffected by everyday use and mishaps such as dirt, dust, condensation, liquid spills or cleaning solutions.

This technology delivers super fast, sensitive touch response with excellent dragging performance and perfect picture quality. Ten-point multi-touch support lets you unlock the power of today's touch-enabled applications.

SCRATCH RESISTANT – MULTI-TOUCH SCREEN WITH 7H SURFACE HARDNESS

7H scratch resistant surface hardness ensures durability, as well as a consistent high quality touch experience.

Scratch resistance is essential for touch solutions used for education and public environment. This is achieved thanks to a glass overlay covering the screen. This means that the panel surface can
