The in-house SX scissor technology means that the STREAM DESKTOP is precise and quiet when you type, properties we kept in mind when designing the mouse. Just like the super silent strokes of the keyboard, the mouse will inspire you with its almost inaudibly quiet buttons. That is why the newest member of the STREAM family is the perfect addition to your quiet workspace.

Visually, the popular STREAM KEYBOARD and the new wireless version are cut from the same cloth. Why change something that is already perfect? The simple, yet elegant design means that there is something for everyone - both in the office and at home. And the mouse is the ideal companion. Its shape and size are designed for optimal comfort in both medium and large hands.

If you value ease of use, STREAM DESKTOP is right for you. The mouse and keyboard are ideally matched. The forward and back buttons on the side of the mouse prove to be indispensable in any number of daily tasks. And this dynamic duo can be perfectly adapted to your needs: The mouse resolution has three settings up to 2,400 dpi, and the keyboard has ten office and multimedia keys.

The only way you can have more flexibility is by using the free CHERRY KEYS software. You can download them from www.cherry.de. With CHERRY KEYS, in just a few clicks you can configure your keyboard and mouse to perfectly suit your individual needs.

And nothing beats the convenience of the LEDs built into various keys. They let you know when the Caps Lock, Scroll Lock or Num Lock keys on the keyboard have been activated. In addition, the LEDs flash when you need to change batteries. However, this is a rare occurrence with the STREAM DESKTOP. With up to 36 months of battery life, this set is particularly tenacious.

We took great care to ensure maximum stability in the wireless set. The keyboard has eight rubber pads on the back, rubberized feet and an integrated metal plate. And the mouse feels sturdy and secure in your hand. Thanks to its optimized sliding characteristics, even the most demanding users will get their money's worth.

In working environments in particular, it is of the utmost importance to comply with guidelines, quality standards and environmental goals. The desktop set bears the GS seal "Tested Safety," which means it complies with all relevant European directives and regulations on safety and ergonomics. With the “Blauer Engel” award, the STREAM DESKTOP makes a positive contribution and offers a responsible approach to our environment.

The STREAM DESKTOP is a versatile addition to your workspace – it is solid, resilient, adaptable, durable and stylish. It unites all the beloved features of the STREAM in a 2.4 GHz wireless desktop
