Ideal for professionals requiring a fully-featured mouse and organisations putting sustainability at the forefront, the MY430 EQ Rechargeable Mouse delivers productivity and convenience. MY430’s outer case is composed of a minimum of 56% post-consumer recycled content*, which together with an integrated rechargeable battery aims to reduce our environmental impact. The mouse can be used wirelessly across three different devices. The onboard rechargeable battery does away with the need for disposable batteries, lasting up to 4 months on a single charge. With six buttons, MY430 provides improved navigation and productivity features which users can enhance further with free KensingtonWorks™ software. *Excludes PCB assembly
