The AQUILA PRO AI whole home mesh Wi-Fi system is equipped with the latest Wi-Fi 6 technology, providing improved speed, coverage and capacity for your home network.

No More Dead Zone

Experience exceptional Wi-Fi signal and uninterrupted connectivity throughout your home with the AQUILA PRO AI M30 Mesh Wi-Fi 6 Router. Employing an advanced antenna configuration optimized to produce a more balanced 360° spherical Wi-Fi coverage range and equipped with 5 powerful antennas including one extra 5 GHz antenna for extended range on the faster 5 GHz band, the M30 ensures greater overall coverage and faster performance, making it perfect for high-bandwidth applications like 8K streaming and LAG-free gaming. And if you need more coverage, AQUILA PRO AI is a grow-as-you-need Mesh solution, where you can add additional units to expand coverage and build a whole home mesh system.

No More Having to Juggle Multiple Networks

Say goodbye to the hassle of remembering multiple usernames and passwords. Enjoy seamless Wi-Fi connectivity in your entire home with just one wireless network name (SSID). AQUILA PRO AI supports the 802.11 k/v standard for seamless roaming, ensuring uninterrupted streaming and video calls as you move around your home.

No More Lag and Buffering

Experience dramatically faster internet speeds with high-performance AX3000 dual-band Wi-Fi 6 technology. Supporting 160MHz bandwidth and 1024-QAM, the AQUILA PRO AI M30 can deliver extreme speed up to 3 Gbps. The AI Traffic Optimizer* reduces buffering and congestion even further when running multiple devices simultaneously by prioritizes your bandwidth usage, maximizing your performance on intensive applications like 8K streaming, video conferencing and gaming.

No More Frustrating

Weak Wi-Fi

The AI Wi-Fi Optimizer effortlessly enhances your Wi-Fi connection by continuously scanning your environment for the cleanest and most efficient Wi-Fi channel. On top of this, the AI Mesh Optimizer

provides auto path optimization and self-healing capabilities, ensuring reliable network connectivity. Say goodbye to Wi-Fi drops and slow speeds. Enjoy a fast and stable connection for all your devices.

No More Network Worries

Ensure your children‘s Internet usage is on your terms with Advanced Parental Controls. Easily set profiles and restrict website access and schedule when your kids can access the Internet. Help keep your home network more secure around the clock with ETSI EN 303 645 cybersecurity certification and the latest WPA3 encryption, designed to provide robust protection for all your connected devices.

No More Having your Hands Full

You can turn your guest Wi-Fi on or off, check your login credentials, and reboot your Wi-Fi system, using just your voice with an Amazon Alexa or Google Assistant-enabled devices.

No More Buffering and LAG During Streaming Sessions

Take advantage of the M30’s Gigabit Ethernet backhaul for ultra-fast network speeds and enjoy the best possible network performance when connecting your favorite wired devices such as smart TVs, PCs, or game consoles to your AQUILA PRO AI M30 mesh Wi-Fi router.

No More Complicated Installation

Setup your Wi-Fi in just a few minutes. Simply download the AQUILA PRO AI app, plug your router into your modem and power source, then follow the app's on-screen instructions to enjoy whole home Wi-Fi in no time.

No More Complex Network Management

Experience hassle-free network management with the AQUILA PRO AI App. Let the AI Assistant effortlessly monitor your network's performance and recommend optimizations. Easily set up a guest Wi-Fi network to share with friends and family, activate Parental Controls to keep your kids safer online, and even schedule automatic Wi-Fi shut off at bedtime for a peaceful night's sleep.
