Choose the version that best suits your setup and enjoy three different finishes.

RGB FLOW LIGHTINGERGONOMIC AND ADAPTABLE DESIGN

Designed for durability and easy portability, the MH320's construction is ultra-lightweight and sturdy. Its earcups feature a special design that allows them to be rotated to rest on your neck, allowing you to take advantage of breaks between games in total comfort or to carry them comfortably.

PROFESSIONAL COMMUNICATION

The MH320's microphone provides clear, crisp sound when communicating with your teammates in online games thanks to its noise filtering and high-quality capsule.

PASSIVE NOISE CANCELING

The MH320 ear cushions feature a premium material and foam covering that adapts perfectly to your face and offers passive noise cancellation that will allow you to concentrate and enjoy total immersion to the fullest.

TOTAL CONTROL

The MH320 features an integrated control knob on its cable, to easily raise and lower the volume and mute the microphone at any time. In addition, they are fully compatible with Windows, PS4, PS5, XBOX ONE, XBOX SERIES XS, Mac, Nintendo Switch, Smartphone and Tablet, making them the best possible option when choosing the best headphones.

3D ULTRA-BASS HI-FI DRIVERS

The MH320 drivers reproduce sound with professional quality, immersing you in every game, while enhancing bass and spatiality to offer a perfect experience. Through its 50mm neodymium magnets and biological membranes, they guarantee total multi-level sound fidelity. Ideal for quickly locating your rivals in online games.

RGB FLOW GAMING LIGHTING

The MH320 features RGB Flow LED side lighting that provides a constant color transition, enhancing the aesthetics of the headphones to the maximum and combining perfectly with any of the three available finishes.
