360° CHROMA lighting on the headband and sides of the entire headset, Ultra-BASS 3D spatial sound and a noise-cancelling microphone. They are also ultra-light, with passive noise cancellation and full multi-platform compatibility.

360° CHROMA LIGHTING

Spectacular 360° CHROMA RGB Flow lighting system that illuminates the top headband and sides in a synchronized manner. Highlight your streams and videos like never before or fill them with color wherever you use them.

AVAILABLE IN TWO COLORS White or Pink

Choose the version that best suits your setup, white or pink.

PROFESSIONAL COMMUNICATION

The MH-GLOW's flexible microphone provides clear, crisp audio when communicating with your teammates in online games thanks to its noise filtering and high-quality capsule.

Premium breathable pads

Premium breathable ear cushions for perfect thermal regulation and foam that adapts perfectly to your face and offers passive noise cancellation that will allow you to concentrate and enjoy total immersion to the fullest.

3D ULTRA-BASS HI-FI DRIVERS

The MH-GLOW drivers reproduce sound with professional quality, immersing you in every game, while enhancing bass and spatiality to offer a perfect experience. Through its 50mm neodymium magnets and biological membranes, they guarantee total multi-level sound fidelity. Ideal for quickly locating your rivals in online games, getting excited about your series and movies or enjoying the music you like to the fullest.

ERGONOMIC ULTRA-LIGHTWEIGHT DESIGN

Designed to provide comfort for many continuous hours of use, the MH-GLOW's structure is ultra-light, adaptable and resistant. Its memory-foam ear cushions and extra-large size allow you to reduce the pressure on your ears to a minimum.
