KVM feature allows you to control multiple devices via one set of keyboard, video and mouse. With our exclusive KVM button, you'll find switching devices cannot be any easier! Quick like a snap!

Performance

1ms GTG Response Time

The SuperSpeed IPS technology reduces the response time to 1ms GTG; meanwhile offering the IPS-grade splendid color!

QHD & 165Hz (OC 170Hz)

High resolution and fast refresh rate, giving you the detailed display quality and fluid gaming experience!

Characteristic

SIMPLE BUT STYLISH

The streamline appearance represents the simplicity of the GIGABYTE gaming series design philosophy, sturdy stand and matte finish built for functional and aesthetic features adding more to the characteristics.

OSD Sidekick

GIGABYTE OSD Sidekick allows you to set the display options with keyboard and mouse, giving you the easiest way to adjust monitor settings.

Gaming Features

Eagle Eye

With 3 sizes (small, medium and large) and 4 ratios (1.5x, 2.0x, 3.0x and 4.0x) to adjust, Eagle Eye truly equips you with the finest weapon to beat the enemies! Having hard time aiming at the target? GIGABYTE's eagle eye is the answer to your question!

Gaming Features

Timer

Onscreen timer will assist you on tracking the elapsed game time.

Gaming Features

Crosshair

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. This feature will allow you to customize crosshairs that helps improve your aim in the shooting game.

Gaming Features

HDR Mode

Besides default HDR settings, now you get to enjoy game and movie mode and even create your settings! Moreover, it supports HLG (Hybrid Log-Gamma), allowing you to truly enjoy the content originally created by broadcasting platform such as BBC iPlayer, NHK TV etc.

Dashboard

The dashboard reveals your real-time hardware information including CPU voltages, clock speed, temperatures, etc. The best part is that it won't be blocked by any games.

Black Equalizer

This feature allows you to have more details of the dark side without overexposing the bright side at the same time.

HIGHER LEVEL OF CUSTOMIZED COLOR ADJUSTMENT

With the help of Six Axis Control, it's able to control six colors (red, green, blue, cyan, magenta, and yellow) individually. It allows you to more accurately display the color gamut on the monitor.

Auto-Update

Users can effortlessly enjoy the finest gaming experience with features GIGABYTE continues to develop and upgrade while giving extra protection to your monitor.

PERFECT VIEWING ANGLE

GIGABYTE Gaming monitor features an exclusive stand that's ergonomically designed to offer extensive range of height and tilt adjustments.
