R3,054

Discover the perfect blend of form and function with the BenQ GW2790 monitor, designed to deliver an exceptional viewing experience for both work and play. This 27-inch LED-backlit LCD monitor combines a sleek, flat-front design with advanced technologies to provide superior image quality and eye comfort. With features like a 99% sRGB color gamut, Full HD (1080p) resolution, and IPS technology, it offers vibrant, accurate colors and wide viewing angles, making it ideal for graphic designers, photographers, and any user who values visual precision.

The GW2790 goes beyond just impressive visuals. It's built with your eye health in mind, featuring Eye-Care Technology, Flicker-Free technology, and Low Blue Light Plus technology to reduce eye strain during long hours of use. Brightness Intelligence Technology automatically adjusts brightness based on content and ambient light, ensuring a comfortable viewing experience at all times.

Whether you're working on detailed design projects, watching movies, or gaming, this monitor is
