

HPE Memory 64GB Dual Rank x4 DDR4-3200 CAS-22-22-22 Registered Smart Kit

Model: P07650-B21

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017304878

Product Code: 48831

R51,145

HPE Server Memory is designed for SMB and enterprise customers with a significant need for performance and capacity, along with a desire to manage total cost of ownership. HPE SmartMemory enables total server memory optimization and runs at top throughput speed. In addition to performance and efficiency, HPE SmartMemory also delivers on reliability. Only high-quality DRAM modules are selected from top suppliers. Now more than ever, DRAM quality is critical, as data center trends, such as server virtualization, cloud computing, and the use of large database applications, have increased the need for higher-capacity memory with greater uptime. HPE SmartMemory undergoes rigorous qualification and testing processes that unlock memory performance features available only with HPE servers.

Product Description: HPE SmartMemory - DDR4 - module - 64 GB - DIMM 288-pin - 3200 MHz / PC4-

25600 - registered | Product Type: Memory module | Capacity: 64 GB | Memory Type: DDR4 SDRAM -
