

SYNOLOGY D4ES02-4G 4GB DDR4 ECC SODIMM RAM Module

Model: D4ES02-4G

Manufacturer: SYNOLOGY

EAN: 4711174724383

Product Code: 48968

R7,032

Upgrade your Synology device with the Synology D4ES02-4G memory module, designed to enhance your system's performance and reliability. This 4 GB DDR4 SDRAM module, featuring an unbuffered SO-DIMM 260-pin form factor, is specifically engineered for compatibility with Synology products, ensuring seamless integration. With ECC (Error Correcting Code) technology, it provides added reliability by detecting and correcting data corruption, making it ideal for critical applications where data integrity is important. Experience improved system responsiveness and efficiency, thanks to DDR4 technology, which offers faster speeds and higher bandwidth. Enhance your Synology device today with this essential upgrade, and enjoy a more reliable and efficient performance.

Product Description: Synology - DDR4 - module - 4 GB - SO-DIMM 260-pin - 1333 MHz - unbuffered |

Product Type: Memory module | Capacity: 4 GB | Memory Type: DDR4 SDRAM - SO-DIMM 260-pin |

Upgrade Type: System specific | Data Integrity Check: ECC | Speed: 1333 MHz | Features: Unbuffered

| OEM Manufacturer Equivalent Part Number: Synology D4ES02-4G | Designed For: Disk Station
