

SYNOLOGY 16GB DDR4 ECC Registered DIMM

Model: D4ER01-16G

Manufacturer: SYNOLOGY

EAN: 4711174724826

Product Code: 49050

R41,157

Upgrade your Synology system with the Synology 16 GB DDR4 memory module, designed to enhance your system's performance and reliability. This registered DIMM 288-pin memory module is equipped with ECC technology, ensuring that your data remains safe from corruption and your system runs smoothly. With a significant storage capacity of 16 GB, it allows for efficient multitasking and improved productivity. Whether you're upgrading your business's critical systems or enhancing your personal setup, this system-specific memory module offers optimized compatibility and stability, making it an essential addition to your Synology system.

Product Description: Synology - DDR4 - module - 16 GB - DIMM 288-pin - 1333 MHz - registered |

Product Type: Memory module | Capacity: 16 GB | Memory Type: DDR4 SDRAM - DIMM 288-pin |

Upgrade Type: System specific | Data Integrity Check: ECC | Speed: 1333 MHz | Features: Registered
| Designed For: Synology SA3400, SA3600; FlashStation FS3400, FS3600, FS6400
