

AMD Ryzen Threadripper PRO 5965WX 4.5GHz sWRX8 24C/48T 280W 140MB TRAY

Model: 100-000000446

Manufacturer: AMD

Product Code: 50335

R50,300

AMD Ryzen Threadripper PRO processor is the first and only professional workstation-caliber CPU to exploit a 7 nm silicon manufacturing process, allowing engineers to double the density and fueling the transistor budget needed to substantially drive-up core throughput. With the unveiling of the first generation of "Zen" CPU technology, AMD disrupted the status quo with a microarchitecture completely rebuilt from the ground up and optimized for modern single and multi-threaded workloads. With the Threadripper PRO processor's "Zen 2" microarchitecture, improvements are many, but two carry most of the weight, especially where high demand professional computing is concerned: up to 15% faster instructions per cycle (IPC), and an impressive quadrupling of the peak floating point throughput rate. The former comes primarily by the way of improved branch prediction and pre-fetching, supported by much deeper and broader allocation of cache, while the latter is the result achieved by both doubling the width of the FPU data path and doubling density. Supporting the increased compute throughput, architects doubled load-store bandwidth and dialed up dispatch

and retire bandwidth to minimize the chances the higher throughput ALUs would be starved of data.

Product Description: AMD Ryzen ThreadRipper PRO 5965WX / 3.8 GHz processor - OEM | Product Type: Processor | Processor Type: AMD Ryzen ThreadRipper PRO 5965WX | Number of Cores: 24-core / 48 threads | Cache: 128 MB | Compatible Processor Socket: Socket sWRX8 | Processor Qty: 1 | Clock Speed: 3.8 GHz | Max Turbo Speed: 4.5 GHz | Manufacturing Process: 7 nm | Features: "Zen 3" Core Architecture | Manufacturer Warranty: 3-year warranty
