R708

Bluetooth calls

Pair your phone with the myPhone Watch LS smartwatch and enjoy the convenience of making and answering calls via the watch. All this thanks to the integrated microphone and speaker as well as the Bluetooth calling function.

Large screen

myPhone Watch LS is equipped with a convenient 1.85-inch IPS display with a resolution of 240*280 px, which will make it easy for you to enjoy content, receive notifications and navigate the touchscreen smoothly.

Voice assistant

Control your smartphone remotely by voice, thanks to the smartwatch's compatibility with Google Assistant and Siri. Pair the watch with your phone and gain access to search for information, set an alarm, schedule meetings, control your music player, and more.

Over 100 sports modes

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

No matter what sport you do, the myPhone Watch LS makes it easy for you to record your training, the number of calories burned and other training-related data. You can choose from up to 107 sports modes.

Health monitoring

myPhone Watch LS allows you to take better care of your health. It allows you to monitor heart rate, stress level, blood pressure, oxygen saturation in the blood and sleep quality.

Durable battery

With a 260 mAh battery, the smart watch can be used for up to 10 days. So you can use the full range of functions without worrying about the battery.

Robust construction.

The sturdy metal case and durable silicone strap will ensure protection from possible damage and long-lasting use. In addition, thanks to its IP68 water resistance, you don't have to worry about your watch getting wet unexpectedly.

Women's health

The menstrual cycle monitoring function will make life easier for every woman – it will help you take even better care of your health and plan physical activities accordingly.
