Contour Design RollwerWave2 wrist rest Leatherette Black

Model: RM-WAVE2-BLK

Manufacturer: CONTOUR DESIGN

EAN: 743870006528

Product Code: 523030

R1,587

Good ergonomics means the possibility of variation, flexibility and personal adaptation. RollerWave2 is significantly deeper than the wrist supports, and slanting more down to the table surface. In this way you have support not only for your wrist, but also your forearm and at the same time a gradual transition from table to keyboard/RollerMouse. The more even the support, the more neutrally your wrists work, and the easier it is on you.

Product Description: Contour Design RollerWave2 keyboard/mouse wrist rest | Product Type: Keyboard/mouse wrist rest | Colour: Black | Designed For: RollerMouse Classic2, Pro2
