If you want to customize the height and angle of your keyboard, simply insert the keyboard risers, two modular mini-platforms, to find the most comfortable working position.

The keyboard risers are covered with rubber to keep your RollerMouse Red in a firm and steady position. The more fixed RollerMouse Red is on the table or desk, the easier it is for you to find the right buttons and maintain your preferred working position.

Tip: You can vary settings to adapt to thinner, more narrow or compact keyboards.
