HPE Ultrium tape technology has been designed to deliver exceptional reliability and performance at the lowest cost per GB. The Ultrium format builds on the best of existing technologies; open standards increase innovation and widen customer choice in terms of performance, capacity, and form factor. Backed by HPE's exhaustive media qualification process, HPE Ultrium data cartridges support all HPE StorageWorks and non HPE Ultrium tape devices.

HPE's Custom Labeled Data Cartridges allow customers to place a custom order with HPE and specifically define the exact barcode sequence printed on each label. Customers should expect a longer lead time for custom order processing.
