

SYNOLOGY SA3400D 12-Bay NAS Intel Xeon D-1541 8GB RAM

Model: SA3400D

Manufacturer: SYNOLOGY

EAN: 4711174725212

Product Code: 523769

R284,140

The Synology SA3400D stands out as a high-capacity, secure, and powerful NAS server designed to meet the rigorous demands of business data management. With dual Intel Xeon 8-core processors and 16 GB of DDR4 ECC RAM, it delivers exceptional performance that can handle multiple tasks simultaneously without compromising speed or reliability. The SA3400D supports up to 576 TB of storage, making it an ideal solution for businesses with extensive data storage needs. Security is a top priority, with AES-NI encryption, VPN Server capabilities, and a variety of RAID configurations to protect your data from unauthorized access. Additionally, the SA3400D offers comprehensive backup solutions, including entire system backup and data & folder backup, ensuring your critical data is always safeguarded. With its versatile connectivity options, including 10Gb Ethernet and Gigabit Ethernet ports, this NAS server provides the flexibility and speed required for various business applications. Whether you're looking to centralize your data management, enhance your data security, or ensure reliable backup solutions, the Synology SA3400D is equipped to meet your needs.
