The Toshiba S300 Pro is designed to meet the demanding needs of surveillance applications. With a robust storage capacity of 4 TB, it supports efficient data management for up to 64 cameras, making it an ideal choice for security environments. Built with advanced features such as Toshiba Dynamic Cache Technology and Conventional Magnetic Recording (CMR), this internal hard drive ensures reliable performance with data transfer rates reaching 600 MBps. Its 7200 rpm spindle speed enhances responsiveness and operational efficiency, while the 512 MB buffer size optimizes data flow. Constructed with durability in mind, the S300 Pro can operate in temperatures ranging from 0°C to 65°C and withstand storage temperatures as low as -40°C. Featuring a shock sensor and a rotational vibration sensor, it is engineered to handle challenging conditions. The drive demonstrates a workload capability of 300 TB per year, making it suitable for 24x7 continuous operation, providing peace of mind for extensive surveillance needs.
