The Toshiba S300 Pro MD10ADA600V internal hard drive is engineered for surveillance applications, providing a capacity of 6 TB. With a spindle speed of 7200 rpm and a data transfer rate of 600 MBps, it ensures swift access to stored data, making it ideal for environments requiring constant monitoring. Designed for 24x7 continuous operation, this hard drive supports up to 64 cameras and can withstand workloads of up to 300 TB per year. Its innovative Toshiba Dynamic Cache Technology and advanced format technology enhance efficiency and reliability, offering peace of mind in critical situations. This model excels in durability, featuring a robust shock sensor and rotational vibration (RV) sensors that provide added protection against physical disturbances. The Toshiba S300 Pro operates efficiently within a temperature range of 0°C to 65°C and has a mean time between failures (MTBF) of 1,200,000 hours. With quiet operation at 34 dBA, it is suitable for noise-sensitive environments, making it a reliable choice for surveillance systems.
