The Toshiba S300 Pro 8 TB internal hard drive is engineered for continuous operation in surveillance applications. Designed to perform 24x7, it supports up to 64 cameras, ensuring extensive data capture without interruptions. With a high data transfer rate of 600 MBps and an internal data rate of 281 MBps, this hard drive offers efficient storage solutions, whether in an active or idle state. The 7200 rpm spindle speed contributes to swift access times, while its 512 MB buffer size enhances data management efficiency. Built to withstand various environmental conditions, it operates between 0°C to 65°C and can be stored safely in temperatures ranging from -40°C to 70°C, ensuring durability. The hard drive's performance includes features like Toshiba Dynamic Cache Technology and Conventional Magnetic Recording (CMR), facilitating optimal data handling for demanding workloads of up to 300 TB per year.
