

HPE Aruba PSU- 350-DC 350W DC Power Supply

Model: JW658A

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017027081

Product Code: 523886

R20,542

The HPE Aruba power supply is a critical component for maintaining the operational integrity and efficiency of network hardware. Designed with hot-plug and redundant power supplies, it ensures that your systems remain online and functional, minimizing downtime and enhancing productivity. With a power output of 350 W and compatibility with DC -48 V, it offers an efficient solution to power needs, ensuring that your network hardware operates smoothly and reliably. Its plug-in module form factor makes installation and maintenance straightforward, providing a hassle-free solution to power supply management. Whether you're upgrading your current system or setting up a new network, the HPE Aruba power supply is an essential component that promises reliability and efficiency.

Product Description: HPE Aruba - power supply - hot-plug / redundant - 350 Watt | Device Type: Power supply - hot-plug / redundant - plug-in module | Input Voltage: DC -48 V | Power Capacity: 350 Watt | Designed For: HPE Aruba 7210DC, 7220DC, 7240DC, 7240XMDC
