The Cisco AnyConnect secure mobility solution provides a comprehensive, highly secure enterprise mobility solution. It combines Cisco web security with remote access technology to help organizations easily manage the security risks of borderless networks. With this mobile security solution, users can access the network with their device of choice, including laptops and handhelds. They can then easily and securely use the applications and information they need to do their jobs. Cisco AnyConnect Apex licenses include all Plus license functionality so only one type of license is required for each user. Cisco AnyConnect Apex licenses are applicable to environments previously served by Cisco AnyConnect Premium, Shared, Flex and Advanced Endpoint Assessment.
