R97,506

The Logitech video conferencing kit is designed to transform any meeting space into a hub of productivity. With its audio input system, including an integrated 6-microphone array and less than 2% total harmonic distortion, participants can enjoy crystal-clear sound quality, making every word count. The kit's video input capabilities are equally impressive, supporting digital video capture resolutions up to 3840 x 2160 with a 5x optical zoom, ensuring that all participants are visible in clarity.

Environmental adaptability is another hallmark of this system, operating flawlessly in humidity ranges from 10 to 95% and temperatures from 0 to 40°C, ensuring reliability under a variety of
