

CA OLP CA ARCserve Backup r11.5 for UNIX Agent for Oracle for AIX + 3Years Enterprise Maintenance

Model: BABORA01300115AC6

Manufacturer: ARCSERVE

Product Code: 524464

R51,521

Arcserve is backup and recovery software that runs on Windows NT/2000, Sun Solaris and HP-UX platforms. It features a centralized management console that lets users manage all backup and recovery tasks on both UNIX and Windows servers. The console also lets users group Windows NT/2000 and UNIX servers into backup domains for consistent administration of backup policies and environment security. To support other environments, the product has a suite of client agents that can run on Windows desktops, all flavors of UNIX and Linux, NetWare, AS/400, and OpenVMS. Use the power of Arcserve ARCserve Backup Agent to protect data across business-critical applications such as messaging/groupware and databases, as well as network topologies including Storage Area Networks (SANs).
