

ARCserve OLP AS Backup Client Agent for UNIX - 3Years Enterprise Maintenance Renewal

Model: GMRBABWB10E19CJ

Manufacturer: ARCSERVE

Product Code: 524590

R7,775

The CA ARCserve ARCserve Backup Client Agent improves data transfer and provides network security, job monitoring, realtime directory browsing and cross-platform backup support. Installed on a network client machine, the Universal Client Agent retrieves and sends data to and from a workstation to the CA ARCserve ARCserve Backup server. It contains separate internal client engines that help reduce resource-intensive processes for the CA ARCserve ARCserve Backup host, serving as a "go-between" that allows CA ARCserve ARCserve Backup to efficiently back up machines running various operating systems.

With the Client Agent properly installed and configured, a system administrator can use CA ARCserve ARCserve Backup's backup program to effectively retrieve data from remote clients. It browses targeted directories in real time and packages data to be transported across the wire in
