CA GLP CA ARCserve Backup for Win Global Dashboard-per Managed site - 3Years Value Maintenance Renewal

Model: GMRBABWB10E61GC

Manufacturer: ARCSERVE

Product Code: 524773

R4,947

Arcserve Backup Global Dashboard provides a single network-based console to monitor and report dashboard information for multiple Arcserve Backup domains across your enterprise; both in your main office and in remote offices, all from a central location.

Using Arcserve Backup Global Dashboard you can find the backup job status of historical and recent jobs, find the nodes that are failing the most, the location of backed up data, whether data is encrypted and ready for disaster recovery, information like volume, disk usage, memory, CPU, NIC, SCSI and fiber cards on each of the production servers, and other information about the performance

and operation of your entire Arcserve Backup and SRM environment.

Arcserve Backup Global Dashboard also helps group the selected servers in your enterprise and monitor the status within specific areas of your environment.
