# CA GLP CA ARCserve D2D for Win Server Basic Edition - 1Year Value Maintenance Renewal

Model: GMRD2DWB10E03GA

Manufacturer: ARCSERVE

Product Code: 524876

## R2,934

Arcserve D2D is a disk-based backup product designed to provide the perfect combination of reliable protection and rapid recovery of your customer's business data. It is a perfect fit for either a first backup system or a solution that provides additional data protection with faster backup and recovery times. It has Bare Metal Restore to dissimilar hardware and patent-pending block-level infinite incremental snapshots (I2 technology) in one package. So not only can your customers recover in minutes, the innovative patent- pending I2 technology means never having to do another full backup on that server, drastically reducing the backup window, network traffic, disk storage and load on your customer's production applications. Arcserve D2D is a core component of the larger Arcserve Family, providing your customers with the full continuum of data protection, recovery and availability technologies to help meet all their data needs.
