R11,937

Integrated Lights-Out (iLO) Advanced Pack gives you the ultimate remote control of system resources located in data centers and remote sites. With an iLO Advanced license key, you can activate powerful remote management features to install, configure, monitor, update, and troubleshoot remote ProLiant servers anywhere, anytime from a standard Web browser, command line or script.

iLO Advanced and iLO Standard give IT administrators complete "do-it-yourself" remote control eliminating the need for travel or onsite assistance. An iLO Advanced key unlocks the remote tools you need for complete virtual presence such as the graphic remote console, virtual media and Microsoft Terminal Services integration. In addition, iLO Advanced increases security by integrating
