

KEYBOARD WRL K1 RGB/BLACK K1X-B4 KEYCHRON

Model: K1X-B4

Manufacturer: KEYCHRON

EAN: 4894979018021

Product Code: 550867

R2,576

The Keychron K1 Version 6 is an ultra-slim QMK wireless mechanical keyboard with an 80% TKL layout. It supports both Bluetooth 5.2 and wired connectivity. Thanks to QMK firmware, you can effortlessly reassign any key or create macros using the Keychron Launcher web app. Compatible with both Windows and macOS, it also allows for easy hot-swapping with Keychron Milk POM Switches (for the RGB Backlight Hot-Swappable version only).

The K1 Version 6 is a low-profile wireless mechanical keyboard with an 80% (TKL) layout, now upgraded with QMK firmware and enhanced acoustic foams. It supports both Bluetooth 5.2 and wired connections. With the Launcher web app, it offers limitless customization and boosts productivity for your work!

Enhanced Acoustic Foam

Elevate your typing experience with the K1 Version 6, featuring IXPE and latex acoustic foam for

quieter keystrokes and enhanced comfort. Paired with EPDM foam for superior support and durability, it redefines quiet, comfortable, and responsive typing.

Program with QMK & Launcher.

The open-source QMK firmware means endless possibilities for key remapping, macros, shortcuts, and more. Now you can easily customize each key with the Keychron Launcher web app.

Anytime, Anywhere Access

Keychron Launcher is a web page configurator that you can use in the office, school, lab, or government department—anywhere with internet access. Configure your keyboard online anytime without the need to download or install files. No hassle, no trouble.

Always Up to Date

Keychron Launcher is continuously updated, ensuring you always have access to the lastest version. There's no need to download updates or wait for installations.

Ultra-Slim

The innovative Keychron Milk POM Low-Profile Mechanical Switch is 33% slimmer than conventional normal profile switches makes the K1 Version 6 one of the thinnest wireless mechanical keyboards in the world. While still delivering a distinguished tactile response.

Wireless Connection

Equipped with Bluetooth 5.2, the K1 Version 6 allows seamless multitasking across your computer, phone, and tablet. Effortlessly connect to up to three devices and switch between them with ease.

Suitable For All Devices

Offers a Mac layout while remaining compatible with Windows. It stands out in the market by providing the same multimedia and function key functions as Apple keyboards for Mac users, but with enhanced tactile feedback.

Additionally, you can configure different keymaps for both Mac and Windows devices. The Keychron Launcher web app is compatible with macOS, Windows, and Linux. The keyboard includes keycaps for both macOS and Windows, along with additional esc and enter keys, facilitating seamless

switching between operating systems.

An Epic Core Inside

A powerful ARM architecture MCU equipped with 256KB Flash will provide more flexibility for developers. The polling rate is 1000 Hz on wired mode (125 Hz on wireless mode) right out of the box, which makes the latency hardly noticeable even in competitive games.

LSA Shine-through keycaps

To further leverage your typing experience, the K1 version 6 comes with our unique LSA profile (Low profile with spherical angle) keycaps and ABS keycaps that aim to provide a more comfortable fingertip feel and a fantastic backlight shine-through effect..

Hot-Swappable (Optional)

We also provide a hot-swappable version for your choice, which means you can customize your typing experience without soldering, pop them in and it's done.

We all have our unique typing preferences, that’s why we are offering hot-swappable option on the K1 Version 6, so you can easily hot-swap every low-profile Keychron mechanical switch in a few seconds to customize the typing experience without soldering.

Redesigned Stabilizers

We’ve redesigned the stabilizers to make it stay on the level the same way as the switch while making sure it still delivers reliability and less wobble on the big keys like the space bar, left Shift, backspace, and Enter key.

RGB Backlights

Shine-through keycaps create a brilliant backlight effect, available in both RGB and white backlight versions. The RGB version offers 22+ dynamic backlight settings, while the white backlight version features 14 unique modes. You can easily fine-tune the RGB hue, saturation, brightness, and effect speed for full customization.

Ergonomic Support

Three levels of adjustable typing angle (3.37°, 4.2° and 6.7°) aim to provide long-lasting ergonomic
