KEYBOARD USB PCMK 2 HE TKL/ANSI BLACK PCMK2HE801B PULSAR

Model: PCMK2HE801B

Manufacturer: PULSAR

EAN: 8809752620335

Product Code: 551088

R3,612

PULSAR PCMK 2 HE (PCMK2HE801B)

The Hall Effect Keyboard for Competitive Gamers

Experience peak gaming performance with our Hall Effect keyboard, specifically optimized for FPS and competitive play. Featuring an 87-key ANSI Tenkeyless layout and lightning-fast magnetic switches, it delivers rapid response times essential for quick actions. With Rapid Trigger technology and adjustable actuation from 0.1mm to 4mm, you can customize your key sensitivity for ultimate precision. Use the web-based software 'Bibimbap' to explore 44 preset RGB lighting effects, all housed in a durable design with hot-swappable switches. Elevate your gaming experience and gain the competitive edge you need!

Gateron x Pulsar Magnetic switch

The magnetic switch offers full range switch motion, detecting the actuation point of each key with an accuracy of 0.1mm. Users can customize the actuation point to their preference, enabling faster typing and an enhanced gaming experience.

Rapid Trigger

Rapid Trigger technology adjusts actuation and release points, minimizing input lag. Keys activate instantly on press and deactivate quickly on release, enabling fast inputs. Ideal for FPS gamers, it offers enhanced responsiveness and a competitive edge.

Adjustable Actuation

The adjustable actuation feature allows users to customize the actuation depth of each key on the magnetic keyboard, ranging from 0.1mm to 4.0mm. This personalization enables users to optimize key responsiveness according to their individual typing style, resulting in faster and more accurate input. Tailor your keyboard experience to meet your unique preferences and enhance your overall performance.

Quick Tap

The Quick Tap feature enables immediate input recognition as soon as a key is touched. Unlike traditional keyboards, which require a full press and release to register an action, Quick Tap allows for input with just a light touch. This responsiveness is particularly advantageous in action games, quick skill execution, and situations requiring rapid successive strikes. Experience seamless gameplay and enhanced performance with this innovative technology.

The True 8K polling rate scans the position of every key at an impressive speed of up to 8KHz, delivering smooth and rapid control. This exceptional speed minimizes keyboard latency to just 0.125ms, making it ideal for gaming scenarios where responsiveness is crucial. Experience unparalleled precision and speed for your gaming sessions.

44 Preset RGB

Offering 16.8 million colors, the RGB lighting system features 44 preset effects that enhance your experience. Each preset provides a diverse array of effects and color combinations, enabling users to adjust the keyboard’s illumination to create the perfect atmosphere or theme. Whether aiming for a

vibrant, energetic setup or a more subdued ambiance, you can effortlessly tailor the lighting to reflect your personal style and mood. Elevate your workspace or gaming environment with stunning, customizable RGB lighting.

Triple Absorption Structure

Engineered with a triple sound-dampening structure, this keyboard minimizes noise and enhances the typing experience. The primary and secondary sound-absorbing materials located above and below the internal PCB effectively reduce vibrations and noise during keystrokes. Additionally, a thick silicone dampening layer on the bottom minimizes resonance. This design ensures a quieter and more comfortable usage experience, creating an undisturbed environment whether you're gaming or working. Enjoy a refined, distraction-free atmosphere with every keystroke.

PBT DOUBLE-SHOT KEYCAP

Double injection keycaps are durable, with legends that never fade and a premium, long-lasting appearance.

ALUMINUM ALLOY BODY

Constructed from a durable aluminum plate, this keyboard effectively prevents twisting and ensures a stable typing experience.

DUAL RAIL

The dual rail system ensures precise alignment of switches without any wobbling, providing a consistent and reliable response. This design minimizes noise and maximizes switch stability, creating a comfortable and pleasant typing environment. Enjoy a seamless typing experience with enhanced accuracy and reduced distractions.

N-POLE HOT SWAPPABLE

Designed for magnetic switch compatibility, this product only supports N-pole magnetic switches, allowing users to easily configure their setup. Mix and match different N-pole switch types to craft a customized typing environment with your preferred feel and response speed. Experience a truly personal keyboard that reflects your unique style and preferences.

Web based Software 'BIBIMBAP'
