Upscale your business

Samsung's QET series features intelligent upscaling technology that displays all content in eye-catching UHD resolution, along with a sleek design and simple content management features.

Incredible UHD picture quality

Samsung's QET series displays images in ultra-high definition to immediately grab customer attention with lifelike details and advanced picture quality.

Crisp and vivid colour expression

Samsung's QET series features a crystal display which optimises colour, minimises distortion and ensures all colours displayed are true-to-life.

Intelligent UHD upscaling

QET's UHD upscaling feature is made possible by Samsung's Crystal Processor 4K. This innovative technology allows the display to play lower resolution content at UHD-level quality while also improving the visibility of on-screen text and images.

Boundless design for an immersive experience

QET's bezel-less design creates a more immersive viewing experience and provides an elevated aesthetic in any environment.

Content management made easy

MagicINFO Lite Player makes managing content simple with pre-loaded images and videos in addition to straightforward uploading options from a personal computer or USB drive.

Intelligent UHD upscaling

QET's UHD upscaling feature is made possible by Samsung's Crystal Processor 4K. This innovative technology allows the display to play lower resolution content at UHD-level quality while also improving the visibility of on-screen text and images.
