Samsung S27FG902XU computer monitor 68.6 cm (27") 3840 x 2160 pixels 4K Ultra HD LED Silver

Model: LS27FG902XUXEN

Manufacturer: SAMSUNG

EAN: 8806097022503

Product Code: 552146

R20,842

Game in a whole new dimension

Glasses-free 3D Experience

Break down the barriers between imagination and reality with the industry's best 3D picture quality. Immerse yourself in a diverse array of 3D gaming experiences across genres with stunning 3D effects on a 4K screen — all without the need for special glasses, thanks to eye-tracking technology and view mapping algorithms.

Unlock new dimensions of your favorite content with AI

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

AI 3D Video Conversion

Transform your favorite videos into 3D. AI analyzes and converts videos to add depth to the objects, giving you a new way to enjoy content you love.

Dive smoothly into 3D worlds

Odyssey 3D HUB

Jump into your 3D world effortlessly with Odyssey 3D HUB — your gateway to the best 3D video and gaming experience. Register to access supported games, and adjust settings to get the most out of your favorite content.

Enrich your sound experience

Spatial Audio

Built-in dual speakers provide directional sound that enhances the audio of 3D videos, bringing games straight out of the screen into your world.

Light up the world beyond the screen

Edge Lighting

Expand your game maps with Edge Lighting. The LEDs around the bottom of the monitor detect and match colors of your screen to bring the visual experience closer to reality.

Enjoy stutter-free control for smooth gameplay

165Hz Refresh Rate & 1ms Response Time

Stay ahead of the competition with a steady 165Hz refresh rate and near-instant 1ms response time (GtG). Catch movements in real-time with minimized lag for sharp precision and ultra-smooth, unbeatable gameplay.

Get smooth action without disruption

G-Sync Compatible

G-Sync compatibility syncs the GPU and panel to reduce choppiness, screen lag and image tearing. Along with AMD FreeSync Premium, it creates ultra-smooth scenes that flow smoothly to the next.
