Powered by AMD Ryzen™ AI 5 340 / 7 350 processors and AMD Radeon™ 800M graphics, the S510AD delivers smooth multitasking and high-quality visuals. Built for demanding industries such as automotive, utility operations, and field service, its edge-ready AI enables real-time diagnostics, intelligent automation, and secure offline processing, allowing for faster decisions and greater operational efficiency even in remote or connectivity-limited environments.

PURPOSE-BUILT FOR THE FIELD

See more and do more away from your desk. The spacious 15.6" Full HD screen delivers 1,000 nits of brightness for comfortable reading in direct sunlight. Dual hot-swappable batteries help ensure extended use and uninterrupted operation during swaps. The large touchpad and optional multitouch screen deliver smooth operation, even with gloves and in varying temperature conditions. Whether you're inspecting infrastructure or managing assets in remote locations, the S510AD delivers the rugged reliability field professionals need. Whether you're inspecting infrastructure or managing assets in remote locations, the S510AD delivers the rugged reliability field professionals need.

CONFIGURABLE AND CONNECTED

Built to integrate seamlessly into demanding industrial workflows, the S510AD offers cutting-edge wireless connectivity, including Wi-Fi 7, Bluetooth® 5.4, optional dual-SIM 4G LTE/5G Sub-6, and dedicated GPS for precise location tracking. For wired performance, standard 10/100/1000 Base-T Ethernet is joined by optional 2.5GBASE-T Ethernet. Up to two USB4 Type-C ports enable high-speed data transfer, peripheral charging, and expanded device compatibility. Legacy ports such as RJ45 LAN and an optional Serial (9-pin D-sub) offer compatibility with existing equipment. The optional rugged USB Type-C cable, with a secure, lockable design, delivers stable data transfer and helps prevent accidental disconnection, giving technicians the reliability they need during critical diagnostic work.

ENHANCED ENTERPRISE SECURITY

The S510AD keeps your data locked down, wherever work takes you. Multifactor authentication combines Windows Hello facial recognition, AMD PRO Technology, and optional smart card, fingerprint, and RFID readers for uncompromising access control. Its user-removable, self-encrypting SSD protects information during storage, transport, or servicing. Getac Secure Erase securely erases SSD data to meet industry standards, safeguarding it from unauthorized recovery. With enterprise-

grade manageability and full compliance with modern security standards, IT teams stay in control while your data stays protected.

RESPONSIBLE RUGGEDNESS

S510AD raises the sustainability bar for rugged laptops. It's MIL-STD-810H and IP53 certified against water, dust, strong vibrations, 3-foot drops, challenging temperatures, and more, all with a chassis comprised of 45%+ post-consumer recycled (PCR) materials, which reduces energy consumption, carbon emissions, and e-waste in its supply chain while putting its design sustainability among the best rugged laptops on the market.
