

# Ugreen DXP6800 Pro NAS Desktop Intel® Core™ i5 8 GB DDR5 Grey, Black

Model: 25899B

Manufacturer: UGREEN

EAN: 6941876267514

Product Code: 559561

## R28,777

Dual 10GbE Network Ports: Two 10GbE high-speed network ports that can be aggregated into 20G bandwidth for download speeds of up to 2500MB/s. Transfer large files smoothly like a breeze. Load between the two port links can be dynamically adjusted and balanced to improve transmission efficiency.

Unparalleled Processing Performance: With a 12th Gen, 10-core 12-thread Intel Core i5 Processor, processing performance is improved by leaps and bounds compared to previous processors.

6-Bay, 196TB Massive Data Storage: Equipped with six SATA and two M.2 NVMe drive bays, the NASync DXP6800 Pro has a maximum storage capacity of up to 196TB. And supports JBOD/Basic/RAID0/RAID1/RAID5/RAID6/RAID10 RAID levels. Store thousands of HD movies, pictures,

and documents, Making NASync a movie library, photo album, and file storage space all in one.

One, All-Inclusive App: Rather than downloading individual applications for specific functions, the NAS App incorporates these functions into one place. Access Storage Manager, Files, Photos, and more, all from one convenient location. (Please follow the instructions to upgrade the firmware for a better experience.)

Professional Data Security: Compared with cloud drives, NASync allows users to store massive personal data in trusted local devices, preventing leakage and surveillance to the greatest extent. Data transmission and accounts can be fully protected with professional encryption and multi-factor authentication.
