Multi-gig WiFi 6 access point for small businesses

Zyxel NWA90AX Pro

AX3000 Dual-Radio Multi-gig PoE Access Point with secure authentication support

Multi-gig WiFi 6 access point for small businesses

Delivering AX3000 WiFi speed with 2.5G Ethernet uplink port, the Zyxel NWA90AX Pro provides the powerful and fastest WiFi 6 speed for small businesses, SoHo, and home offices.

Small business owners looking for an affordable WiFi 6 access point with multi-gig connectivity, Zyxel’s NWA90AX Pro is no doubt the ideal choice for them to support more connected devices and

applications with the fastest speeds.

Boost your WiFi performance

To better leverage the faster speeds in 5Ghz band, Zyxel NWA90AX Pro equips with 3x high-gain antennas to boost WiFi signals and extend coverage, especially to previously hard-to-reach areas.

In addition to the WiFi boost, NWA90AX Pro also comes with the premium multi-gig Ethernet connections. As it can run on the common-type Cat5e cabling, a 2.5G uplink port breaks through the 1.0G bottleneck without re-cabling, making it easy to create an affordable high-speed network environment for your business or home.

Secure authentication to protect business networks

With the support of captive portal and IEEE802.1x authentication, the NWA90AX Pro not only offers small business users the enterprise-level security to protect their networks, but also the flexible opportunity to customize wireless network usage login for marketing and business recognition.

Set up your wireless network in minutes!

No networking expertise required - The NWA90AX Pro is designed to be easily configured and installed in places like small hotels, retail stores, restaurants, or home offices.

The simple configuration allows you to set up the network for your customers and employees in minutes. The AP can be managed either with Nebula Cloud networking platform or the device’s local interface.
Easy deployment with Zyxel’s Smart Mesh
Zyxel’s Smart Mesh technology automatically forms dynamic wireless links between access points and mitigates the complex, inconvenient cabling for WiFi deployment.

The Smart Mesh technology can save you from extra wiring by enabling the wireless connectivity between APs for extended range and flexible deployment.

Manage it your way!
