insights, guiding you to push your limits. Now available in Titanium Blue — a shade that embodies resilience and is ready to journey wherever you choose to go.

High-endurance

battery power

Whether scaling cliffs or trekking for days, push boundaries without worrying about recharging. Instantly switch between modes — Exercise power saving mode for tracking workouts or Power saving mode for long-term use. Stay powered up for whatever thrills come your way. Now upgraded with a large 64 GB storage, record even more GPX data and reach new heights.

Tracking

Swimming, water skiing, kayaking or windsurfing. Galaxy Watch Ultra tracks it all and more.

Heart rate

Enhanced BioActive Sensor can keep up even when you're tackling the waves.

Water Lock

Easily track your exercise even in the water with Water Lock mode.

Start your journey

Use GPX data-based guidance to navigate your way to destinations.

Route

Get more than just turn-by-turn directions. Find your path with detailed guidance, including altitude.

Track Back

Ready to head back? Return safely back to where you started with a simple click.

Your immediate

safety Siren

If you're in trouble, press and hold the Quick Button for 5 seconds to activate a powerful siren for help. A piercing 86-decibel sound can be heard up to 180 meters away, breaking through a forest of trees. When GPS isn't enough for you, the Watch is there with an SOS. It detects falls, offers SOS via the home button, and provides instant access to Medical info.

Carve your own path

Get off the road and create your own. Bike through uncharted canyons and make your personal routes to return to. Fill your adventure with unexpected twists and turns.

Race

Track your pace against past records and get real-time updates to push yourself.

Route

Get more than just turn-by-turn directions. Navigate with detailed guidance and safely return with Track Back.

Personalised HR Zone

Monitor your Heart Rate Zone tailored to your capabilities to ensure a quality workout.

Don't let darkness dim your adventure

Stay on track even in the pitch dark. When night falls, the display automatically switches to Night mode, preserving your night vision. Continue your overnight adventure without missing a glimpse of the Milky Way.

Train your way to triathlon victory. Effortlessly transition between workouts in those high-octane moments, while monitoring every step of the journey.

Quick Button for swift sports transition

Jump straight into your favourite endurance sports like triathlon, duathlon, aquathlon and more with new Multisport Tile, at the press of the Quick Button. Too easy? Craft your own ultimate challenge to push your limits.

Multisport

Kickstart triathlon, duathlon, aquathlon or create your own challenge.

Milestones

Reach a milestone, get rewarded with a badge for extra motivation.

Workout results

Check your final records and burned calories at the end of your workouts.

Dual-Frequency GPS. Concrete jungle ready

Our most accurate GPS ever on Galaxy Watch keeps you on course, even through densely packed buildings. Incorporating both L1 and L5 frequency bands, Galaxy Watch Ultra tracks you with pinpoint accuracy.

Monitor Energy Score to crush your goals

Discover your body's potential with Energy Score. Galaxy AI analyses key indicators of your overall condition and gives you a daily score. How's your score today? Ready to challenge yourself? If not, fine-tune your sleep, exercise and more to get your body in shape to step it up.

Power up your cycling with Personalised FTP

Maximise your pedal power and go the extra mile. With a power meter paired with your Samsung Galaxy smartphone, Galaxy AI quickly estimates the Functional Threshold Power based on your own heart rate within 10 minutes of a ride. Set your training intensity according to your FTP and hit your peak performance.

Rest like a champion. Perform like a legend

Top-notch performance begins with quality sleep. Keep tabs on your sleep stages, duration, heart rate, blood oxygen and even snoring. Then, receive coaching on ways to better understand your sleep pattern.

Breathe easy with sleep apnea risk detection

Sleep soundly — and safely. The Galaxy Watch Ultra keeps an eye on your sleep behaviour and helps detect potential sleep problems. For the first time ever on Galaxy Watch, it offers Sleep apnea feature.

Health check? Just glance at your wrist

Maintain a healthy lifestyle by adding a quick checkup to your workout routine — from blood pressure to Bioelectrical Impedance Analysis.

Keep tabs on your Blood Pressure

Embrace every thrill with peace of mind. Check your vitals on the go with instant blood pressure readings at your fingertips.

Measure your growth with BIA

Maximise gains, minimise guesswork. With the Bioelectrical Impedance Analysis (BIA) Sensor on your watch, keep an eye on your body composition regularly and hit your fitness goals.

Track your AGEs index for a livelier, healthier life

Mind your diet and be your best self. Advanced Glycation End-products(AGEs) index is an indicator of your metabolic health, affected by your diet and lifestyle. Galaxy Watch Ultra measures your AGEs index during your sleep, letting you check the results right on your wrist. Monitor your dietary intake, improve your lifestyle and maintain peak performance.

Keep track of your heart health while you sleep

Monitor your cardiovascular health effortlessly and continue to explore the great outdoors. While you sleep, Vascular Load keeps track of your cardiovascular strain, delivering results directly to you through the Samsung Health app the next day. Compare the results to your baseline measurement and make thoughtful choices for a stronger, healthier you.

Enjoy the seamless experience across Android smartphones

Start your Galaxy Wearable experience on your Android smartphone. Pair your Galaxy Watch, Buds or Ring easily with the Android phone you already have. Just download the Galaxy Wearable and Samsung Health apps on Google Play, and you're good to go. You can even try out different watch faces on the Galaxy Wearable app—mix and match various features to your liking.

Just ask. Done

Maximise productivity with Galaxy Watch Ultra, even on the go. Google Gemini is your conversational and capable assistant that you can speak to naturally using your voice. Ask for help to create a message to your friend saying that you're running late, or summarise your last email out loud. You can even tell Gemini to remember important information like where you parked or which locker you used – all from your wrist.

Suggested replies on the go with AI

Reply to your buddies instantly in just the right tone. Galaxy AI analyses previous messages in your

chat and offers quick reply suggestions that match the mood.

Double Pinch to stay in the action

Capture photos, answer calls or silence alarms — all with just a Double Pinch. Galaxy Watch Ultra is even more powerful when paired with other Samsung Galaxy devices. Stay in control, stay connected.
