Control and transfer files between two Windows® and/or Mac® systems using a single keyboard and mouse

The SVKMS2 2 Port USB Keyboard Mouse Switch Cable w/ File Transfer for PC and Mac® enables you to control two computer systems using a single keyboard and mouse set, and offers the ability to transfer files between the connected Windows® and/or Mac systems.

Offering automated installation (no additional software or drivers required), this compact KM switch cable connects your Windows and/or Mac systems using a standard USB 2.0 port to make switching between systems as simple as moving the mouse over to your second display, or using hot-keys.

This simple 2 port USB KM switch also provides the added benefit of clipboard sharing so you can copy and paste text from one system to another, or drag and drop files for effortless transfers and
