UME2 is a modern approach to the classic design, emphasised by the intensity of cover colors. The plug with a convex anti-slip design makes it easy to open the USB in any situation. After removing the plug, you can put it on the other end of the cover – this ensures that you will not get it lost. There is a perforation to attach the pendant – it is an ideal solution for those who like to have a USB stick always with them.

UME2 memory is available in the capacities from 8 GB to 128 GB. The used components enable to read speeds of up to 20 MB / s and write from 5 MB / s.
