Goodram UME3 USB flash drive 32 GB USB Type-A 3.2 Gen 1 (3.1 Gen 1) Turquoise

Model: UME3-0320CRR11

Manufacturer: GOODRAM

EAN: 5908267961445

Product Code: 611348

R958

UME CARE was created for those for whom safety and hygiene are important, especially in the office space. Thanks to the Biomaster technology, the product housing contains silver ions with bactericidal properties. Consequently, the product is completely protected from bacteria throughout the entire period of use. Antibacterial properties of the UME CARE have been guaranteed by laboratory tests. After 24 hours, the reduction of microorganisms on the UME CARE surface is up to 99%.

BIOMASTER technology

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

- **Biomaster is proven to inhibit the growth of microbes by up to 99.99%.**
- It is based on silver ion technology, recognised for centuries with no harmful effects.
- Biomaster is a technology that has been tested many times, also according to ISO standards.
- Biomaster is effective for the intended lifetime of the product it’s added to. It is built-in and doesn’t wear off or leach out.
- The germicide is odorless and cannot be seen. It does not affect the product in any visible way, apart from making it antibacterial.
- Biomaster-treated polimer can be recycled effectively without any complications.

Ready to work

UME3 CARE USB Flash drive is available in the capacity of 16, 32, 64, 128 GB. The used components enable to read speeds of up to 60 MB/s and write up to 20 MB/s.
