ports, users can enjoy high-speed GPON services and bandwidth-intensive multimedia applications—such as interactive gaming, streaming, and real-time audio—much faster and easier than ever before.

Full Gigabit Wired

With four gigabit LAN ports, speeds can be up to 10x faster than standard Ethernet connections. The XC220-G3v can provide robust and extremely fast connections to all of your favorite wired devices, including game consoles, smart TVs, DVRs, and more.

Supports VoIP Calls

With FXS port, users can make or receive phone calls over the Internet simply by connecting the device to their existing telephone set.

Easy Remote Management
Supports OMCI and TR-069, which make it easy
to activate, configure and manage remotely.
