BREAKING THE MOLD

OF “GAMING” ROUTERS

Two years ago we disrupted the gaming world by introducing Nighthawk Pro Gaming routers, the first routers specifically built for gamers. Using proven technology and powered by DumaOS, they became the routers that professional gamers and streamers trust. Now, we have set the bar even higher by introducing the world’s first WiFi 6 gaming router, the XR1000. WiFi 6 gives you higher performance, improved speed and less network jitter and latency. Loaded with the new DumaOS 3.0 and features like geo-fencing, ping heatmap, bandwidth allocation (QoS), and more. The XR1000 is designed to give you the upper hand and the #PowerToWin.
