No App Download Required

No software or app required—just plug in and instantly share content during your meeting.

No Network Setup Required

No complex network setup or IT help needed. Receiver, Multimedia Hub and Button pair automatically—just plug and play to start presenting instantly.

Support BYOM and BYOD Collaboration Solutions

Host wireless videoconference meetings via Zoom, Microsoft Teams, or Google Meet. Plug and play to join BYOM/BYOD for seamless, cable-free conferencing anywhere.

*Open video conferencing app on your laptop and select the audiovisual device, switch the camera from your laptop to the meeting room, then share content via Host Button.

4-Way Split Screen

Up to 4 presenters can share ideas on one screen. Works with Windows, Mac, Chrome, and Linux—perfect for fast, efficient multitasking.

Guest-Friendly Design

Guests can present instantly via HDMI or USB-C—no app or login required. Securely share from any laptop, including MacBook and Chromebook, keeping meetings on track.

One-Time Wireless Conferencing Setup

Set up once—no need to rebuild for every meeting. Save time, cut support, and let presenters start instantly by plugging in.

Steps:

1.Connect display to Receiver via HDMI cable and connect video bar to Multimedia Hub via USB cable.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

2. Plug Host Button into presenter’s laptop, tap the green button and share the content.

*Plug Button into another presenter’s laptop for seamless content switching.

3. Open video conferencing app on Presenter’s laptop and select camera, microphone and speaker.

*Support Zoom, Microsoft Teams, or Google Meet applications.

Streamlined Audiovisual Integration for Hybrid Meetings

Multimedia Hub supports various kinds of audiovisual devices for enhanced sound, visuals, and flexible installation—compatible with any device and room setup.

Fits into Your Meeting Room Layout

With its separate wireless Receiver and Multimedia Hub, InstaShow can connect to existing ceiling projectors and mounted video bars and cameras without the need to run additional cables.

Maximum Device Flexibility

Featuring high compatibility, InstaShow works with nearly every major brand of cameras, mics, speakers, or video bars via Multimedia Hub for flexible, seamless communication.

Supports Various Input Sources

USB-C and USB-A ports connect to separate cameras, mics, speakers, or integrated video bars through a Multimedia Hub.

Seamless 4K UHD Transmission

Enjoy smooth 4K UHD transmission with full support for 4K, HDCP, and Touchback control—delivering professional, interactive presentations every time.

Superior Encryption Security

Advanced encryption and CVSS 4.0 certification guarantee secure data transfer with no risk of leaks.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Zero Software or Network Setup

No software or internet needed, minimizing risks and keeping sensitive data safe from breaches and hacks.

WPA3 Enterprise Security Protection

WPA3 enterprise* secures the Receiver-Button connection, keeping every presentation safe, secure, and reliable.

*Available in Q1 2026

HDCP Support

Supports HDCP-encrypted HDMI content, letting presenters connect devices without security errors or blank screens.

CVSS 4.0 Certified Security

Certified to CVSS 4.0 by ISO27001 & ISO17025 labs for guaranteed information security.

Router-Level Chipset

InstaShow uses an MTK router-level chipset with automated channel switching to ensure high-speed streaming support in crowded wireless environments with multiple InstaShow Receivers in the same area without any configuration.

Easy to Manage.
Simple to Maintain
Cloud management and swappable plugs simplify upkeep and streamline control across multiple meeting rooms.

Versatile Connection Design
