Smaller than Ever, Light as a Feather

Designed for Life On the Go

OpenDots ONE are our smallest open-ear earbuds, each weighing just 6.5g1, making them feel almost weightless on your ears. Enjoy comfortable, extended listening sessions without any discomfort. The lightweight charging case is pocketable, ensuring the fun never stops.

Ready for Any Occasion

The clip-on system applies no pressure to your ears or interference with accessories, making them fully compatible with sunglasses, hats, caps, and more. Experience total comfort and a secure fit, whether you are resting or on the move in everyday life.

Stay Locked-in and Secure

Our clip-on design ensures the earbuds stay firmly in place, even while running and jumping. This frees your mind from concerns about losing them, allowing you to fully immerse yourself in your training soundtracks.

Built to Endure, Designed to Adapt

Shokz JointArc™, the part connecting speakers and battery compartment, is crafted from a super-thin and flexible titanium alloy that fits comfortably on both small and large ears, keeping the earbuds securely in place without any wobbling. Built to last, it has passed tough bending and twisting tests, flexing back to its original shape

Secure Grip and Comfortable Fit

Enclosed with skin-soft silicone, these earbuds enhance friction for an even more secure fit. The silicone’s thickness is meticulously designed to keep the earbuds compact while providing just the right cushioning at contact points, ensuring maximum comfort—so light, it feels like you are wearing nothing at all.

Compact Bass Powerhouse.

Light and compact, it delivers surprisingly powerful bass for an impressive sound experience. The

dual-driver system, equivalent to a 16mm3 custom driver and enhanced by Bassphere™ technology, generates deep, powerful audio, anytime, anywhere you go. With our OpenBass™ 2.0 algorithm adding another layer of textured bass, hit play and let music elevate your day.

Customise Your Sound and Immerse

Tailor your experience with 4 preset EQs and 2 custom modes, allowing you to fine-tune every beat

For Your Ears Only

Your audio and phone conversations remain exclusive to you, with sound leakage-cancelling technology Shokz DirectPitch™ helping to protect your privacy and avoid disturbing those around you.

Easy Wireless Charging

The case is compatible with wireless charging, making it effortless to power up. Simply place it in the centre of a compatible charging pad, and you're good to go.

Up to 40 Hours of
Listening Time
With a full charge, OpenDots ONE delivers 10 hours of playtime, while the charging case extends it to an impressive 40 hours4. Enjoy uninterrupted listening, day and night, free from battery anxiety.

Get 2-Hour Battery
in 10 Minutes4
Need a quick audio boost? A 10-minute charge in the case provides your earbuds with enough power for 2 hours of listening.

Interchangeable Left and Right Earbuds

With our advanced Dynamic Ear Detection Technology, OpenDots ONE automatically recognises which earbud is in which ear, allowing for interchangeable wear. Simply clip them on and hit play. When you're done, place the earbuds in either spot of the charging case – no need to worry about which side is which.

Smart Touch Control

Tap the battery compartment or JointArc™, or 'pinch' the battery compartment with two fingers to control your music and calls with ease.

Crystal Clear Calls

Your voice is captured with precision and ambient noises are cancelled. During calls, our AI algorithm analyses your environment and filters the noises, and microphones in the optimal position transmit every detail of your speech.

IP54 Water-Resistant

Sweat hard, worry less. From daily training to intense workouts, IP54 water resistance forms a protective shield against sweat and splashes.

Multipoint Pairing

Pair earbuds to 2 devices at once to seamlessly switch between both, free of pairing hassle.
