YOUR COMMERCIAL PARTNER

Equipped with multiple COM and USB ports it will let you fully connect at your commercial POS machines such as barcode scanners, receipt printers and many more.

PRINTER PORT (PARALLEL PORT)

MSI PRO PRO 16T 10M All-in-One PCs are build-in parallel printer port to connect printers. End user can edit the document and print it out directly. It reduces the data leakage risk which would be occurred while documents were printed via public printer device .

NVME PCIE M.2 SSD

Time is very important during your workday. Enjoy a blazing fast system boot up and insanely quick loading of applications and data to save time. The PRO 16 Series supports a NVMe PCIe M.2 SSD that delivers speeds up to 2200MB/s which is 5 times faster.

BACKUP & TRANSFER

YOUR IMPORTANT DATA IMMEDIATELY

Transfer Speeds up to 10 Times Faster!!

FANLESS DESIGN

Its innovative fanless heat dissipation design is silent, anti-dust, and energy efficient. A fan-less design also reduces downtime and increases the life-cycle of the All-in-One PC.

DUAL LAN - ALWAYS BE YOUR BACKUP

With the Dual LAN Design, the PRO 16T will always be your backup and support the Internet/Intranet dual network environments.

TPM:

SECURE YOUR CONFIDENTIAL DAT

TPM uses a mix of software and hardware to protect any important passwords or encryption keys. If a TPM chip senses that a system's integrity has been compromised by a virus or malware, it can start up in a quarantine mode to help fix the problem.

Hardware-based security, scan the BIOS for the unauthorized changes.

Provide a safe storage of encryption keys, certificates and passwords used for logging in to online services, which is safer than storing them inside software on the hard drive.

If a TPM senses the hard disk is moved to another location, as might be the case if it were stolen, it locks the system.

The TPM can enable BitLocker Drive encryption utility to run a series of conditional tests to see if it's safe to boot up.

The chip also enables smart-card readers, which certain companies require for user authentication and login.

FAST & EASY CUSTOMIZABLE

It is always important to be able to continue your work at any time. If you need more memory or storage, it is swiftly and easily replaced.

With the HDD Caddy you can install a second internal hard disk in case you need more storage space if the HDD crashes so you can continue working.

SEE MORE WITH ANTI-GLARE

The Anti-Glare display is designed to cut down the light that reflects off the display, so that you always have a great view of the screen, making it more pleasant to use.

SEE MORE, DO MORE

With the VGA output ports, PRO 16T allows you to extend a second screen to pre-view your professional working data.

With the second display, PRO 16T allows you to increase working efficiency with more possibilities in a large variety of situations.

VESA MOUNTABLE

Hook up the PRO 16T anywhere you'd like with its VESA mount support. Take it completely off your table/workspace, or mount it as a display.

SAVE POWER, SAVE EARTH.

The PRO 16T equipped with Intel® dual-core processor which provides impressive multi-tasking performance. The Intel processor also has the characteristic of low power consumption and requiring only 15W TDP to operate, it can lower the power waste and save your money, save our earth.

COUNTLESS OF SUCCESSFUL B2B PROJECTS

Over the past years, MSI has successfully supported Countless of commercial projects, including government tenders, restaurant & hotel facilitation, shopping mall navigation projects, school & university developments and professional office projects.
